Chapter 2

The Accounting Cycle: During the Period

REVIEW QUESTIONS

Question 2-1 (LO 2-1)

External transactions are transactions between the company and a separate economic entity. Internal transactions do not include an exchange with a separate economic entity. Purchasing supplies from a local vendor is classified as an external transaction.

Question 2-2 (LO 2-1)

- 1. Use source documents to identify accounts affected by external transactions.
- 2. Analyze the impact of the transaction on the accounting equation.
- 3. Assess whether the transaction results in a debit or a credit to the account balance.
- 4. Record the transaction in the journal using debits and credits.
- 5. Post the transaction to the T-accounts in the general ledger.
- 6. Prepare a trial balance.

Ouestion 2-3 (LO 2-2)

Dual effect refers to each transaction having an effect on at least two accounts of the accounting equation such that the accounting equation will always be in balance. If an economic event increases (decreases) one side of the equation, then it also increases (decreases) the other side of the equation by the same amount, or, it increases one account and decreases another account on the same side of the equation.

Question 2-4 (LO 2-2)

	Assets	=	Liabilities	+	Stockholders' equity
(a)	Increase	=	Increase	+	No change
(b)	Decrease	=	No change	+	Decrease
(c)	Increase	=	No change	+	Increase
(d)	No change*	=	No change	+	No change

^{*} One asset (equipment) increases while another asset (cash) decreases.

Question 2-5 (LO 2-2)

Jerry is not correct. While it is possible for a transaction to increase one account and decrease another, dual effect simply indicates that at least two accounts will always be affected. However, the accounting equation must always remain in balance. It is not possible for one side of the equation to increase while the other side decreases.

Answers to Review Questions (continued)

Question 2-6 (LO 2-3)

Accounts	Normal balance
Assets	Debit
Liabilities	Credit
Stockholders' equity	Credit
Revenues	Credit
Expenses	Debit

Question 2-7 (LO 2-3)

Jenny is not correct. Any account can be debited or credited. Since an asset has a normal debit balance, it would be debited when it increases and credited when it decreases. Similarly, since a liability has a normal credit balance, it would be credited when it increases and debited when it decreases.

Question 2-8 (LO 2-3)

Accounts	Increase
(a) Cash	Debit
(b) Salaries payable	Credit
(c) Utilities expense	Debit
(d) Service revenue	Credit

Question 2-9 (LO 2-3)

Accounts	Decrease*
(a) Cash	Credit
(b) Salaries payable	Debit
(c) Utilities expense	Credit
(d) Service revenue	Debit

^{*} Answers are opposite of those in Question 2-8

Answers to Review Questions (continued)

Question 2-10 (LO 2-3)

These statements are consistent. Retained earnings has three components – revenues, expenses, and dividends. Changing the balance of any of these components changes the balance of retained earnings. Retained earnings increases with a credit and decreases with a debit. Since expenses reduce retained earnings, an increase to an expense decreases retained earnings.

Question 2-11 (LO 2-4)

A journal provides a chronological record of all transactions affecting a firm. A journal entry is used to describe the format for recording a transaction.

Question 2-12 (LO 2-4)

<u>Date</u>	Debit	Credit
Account Name	Amount	
Account Name		Amount
(Description of transaction)		

Question 2-13 (LO 2-4)

In each journal entry, the sum of all amounts debited equals the sum of all amounts credited.

Question 2-14 (LO 2-4)

(a)		Debit	Credit
	ervice Revenue Receive cash from providing service	1,200 <i>es</i>)	1,200
(b)		Debit	Credit
_	ense ash Pay rent for the current month)	500	500
(c)		Debit	Credit
	otes Payable Purchase building with note payabl	10,000	10,000

Solutions Manual, Chapter 2

Answers to Review Questions (continued)

Question 2-15 (LO 2-4)

- (a) Purchase supplies by paying cash of \$20,000.
- (b) Provide services to customer on account for \$30,000.
- (c) Pay cash on accounts payable of \$10,000.

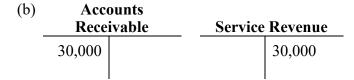

Question 2-16 (LO 2-5)

A T-account is an informal means to show the balance in an account. The left side is referred to as a *debit* and the right side is referred to as a *credit*.

Question 2-17 (LO 2-5)

Posting is the process of transferring the debit and credit information from the journal to individual accounts in the general ledger.

(a)	Supplies	Cash		
	20,000	20,000		

Question 2-18 (LO 2-6)

The general ledger is the collection of all accounts used to record the company's transactions. A chart of accounts is a listing of all account names.

Question 2-19 (LO 2-6)

A trial balance is a list of all accounts and their balances at a particular date. Balance refers to the fact that the sum of the accounts with debit balances should equal the sum of the accounts with credit balances.

Question 2-20 (LO 2-6)

Not necessarily. While total debits equaling total credits is a good indication that all accounts have been appropriately accounted for, the accounts could contain offsetting errors. For example, if one account with a debit (credit) balance is understated by the same amount that another account with a debit (credit) balance is overstated, the trial balance will show equal debit and credit totals.

BRIEF EXERCISES

Brief Exercise 2-1 (LO 2-1)

Proper order:

- (c) Use source documents to identify accounts affected by external transactions.
- (d) Analyze the impact of the transaction on the accounting equation.
- (b) Assess whether the impact of the transaction results in a debit or credit to the account balance.
- (f) Record transactions using debits and credits.
- (a) Post the transaction to the T-accounts in the general ledger.
- (e) Prepare a trial balance.

Brief Exercise 2-2 (LO 2-2)

_	Assets	=	Liabilities	+ Sto	ockholders' Equity	Possible (Yes/No)

EXERCISES

Exercise 2-1 (LO 2-1)

- 1. d.
- 2. b.
- 3. a.
- 4. e.
- 5. c.

Exercise 2-2 (LO 2-2)

-	Assets	=	Liabilities	+	Stockholders' Equity
1.	Increase	=	No effect	+	Increase
2.	Increase	=	Increase	+	No effect
3.	Increase	=	No effect	+	Increase
4.	Decrease	=	No effect	+	Decrease
5.	Decrease	=	No effect	+	Decrease
6.	No effect*	=	No effect	+	No effect

^{*} One asset (cash) increases while another asset (accounts receivable) decreases.

Exercise 2-3 (LO 2-2)

Dual Effect

Assets

- 1. Issue 10,000 shares of common stock in exchange for \$32,000 in cash.
- increase equity increases

Stockholders'

- 2. Purchase land for \$19,000. A note payable is signed for the full amount.
- Assets Liabilities increase
- 3. Purchase storage containers for \$8,000.

One asset (containers) increases and another asset (cash) decreases

- 4. Hire three employees for \$2,000 per month.
- No effect on the accounting equation
- 5. Receive cash of \$12,000 in rental fees for the current month.
- Assets Stockholders' increases
- 6. Purchase office supplies for \$2,000 on account.
- Assets Liabilities increase increase
- 7. Pay employees \$6,000 for the first month's salaries.
- Assets Stockholders' decrease equity decreases

1. Paint houses in the current month for

Exercise 2-4 (LO 2-2)

Dual Effect

Assets

Stockholders'

increase

	\$15,000 on account.	increase	equity increases
2.	Purchase painting equipment for \$16,000 cash.	× •	ipment) increases et (cash) decreases
3.	Purchase office supplies on account for \$2,500.	Assets increase	Liabilities increase
4.	Pay employee salaries of \$3,200 for the current month.	Assets decrease	Stockholders' equity decreases
5.	Purchase advertising to appear in the current month, \$1,200.	Assets decrease	Stockholders' equity decreases
6.	Pay office rent of \$4,400 for the current month.	Assets decrease	Stockholders' equity decreases
7.	Receive \$10,000 from customers	One asset (cash) in	creases and another

in (1) above.

asset (accounts receivable) decreases

Receive cash of \$5,000 in advance

Assets

Liabilities

8. Receive cash of \$5,000 in advance from a customer that plans to have his house painted in the following month.

Assets increase

Solutions Manual, Chapter 2

Exercise 2-5 (LO 2-2)

Transaction	Balance
Retained earnings, April 1	\$13,000
1. Issue common stock for cash, \$11,000	0
2. Provide services to customers on account, \$8,500.	+8,500
3. Provide services to customers in exchange for cash, \$3,200.	+3,200
4. Purchase equipment and pay cash, \$7,600.	0
5. Pay rent for April, \$1,100.	-1,100
6. Pay employee salaries for April, \$3,500.	-3,500
7. Pay dividends to stockholders, \$2,000.	-2,000
Retained earnings, April 30	\$18,100

Exercise 2-6 (LO 2-3)

Debit or Credit	Account
1. Debit	Cash
2. Credit	Service Revenue
3. Debit	Salaries Expense
4. Credit	Accounts Payable
5. Debit	Equipment
6. Credit	Retained Earnings
7. <u>Debit</u>	Utilities Expense
8. Debit	Accounts Receivable
9. Debit	Dividends
10. Credit	Common Stock

Exercise 2-7 (LO 2-3)

	Account Debited	Account Credited
Example: Purchase equipment in exchange for cash.	Equipment	Cash
1. Pay a cash dividend.	Dividends	Cash
2. Pay rent in advance for the next three months.	Prepaid Rent	Cash
3. Provide services to customers on account.	Accounts Receivable	Service Revenue
4. Purchase office supplies on account.	Supplies	Accounts Payable
5. Pay salaries for the current month.	Salaries Expense	Cash
6. Issue common stock in exchange for cash.	Cash	Common Stock
7. Collect cash from customers for services provided in (3) above.	Cash	Accounts Receivable
8. Borrow cash from the bank and sign a note.	Cash	Notes Payable
9. Pay for the current month's utilities.	Utilities Expense	Cash
10. Pay for office supplies purchased in (4) above.	Accounts Payable	Cash

Exercise 2-8 (LO 2-4)

(1)		Debit	Credit
Equip	oment Cash (Purchase equipment with cash)	23,400	23,400
(2) Cash	Service Revenue (Provide services for cash)	6,800	6,800
(3) Rent 1	Expense Cash (Pay current month's rent)	1,300	1,300
(4) Suppl	ies Accounts Payable (Purchase office supplies on account	1,000	1,000
(5) Salari	tes Expense Cash (Pay current month's salaries)	2,100	2,100

Exercise 2-9 (LO 2-4)

- 1. Purchase equipment with cash, \$8,800.
- 2. Provide services to customers on account, \$3,200.
- 3. Pay current month's salaries, \$1,900.
- 4. Receive cash from customers in advance of services, \$1,500.
- 5. Pay dividends to stockholders, \$900.

Exercise 2-10 (LO 2-4)

February 2	Debit	Credit
Advertising Expense Cash (Pay advertising for current month)	700	700
February 7		
Supplies Accounts Payable (Purchase beauty supplies on accounts)	1,300 <i>nt</i>)	1,300
February 14		
Cash Service Revenue (Provide beauty services for cash)	2,900	2,900
February 15		
Salaries Expense Cash (Pay salaries for current month)	900	900
February 25		
Accounts Receivable Service Revenue (Provide beauty services on account	1,000	1,000
February 28		
Utilities Expense Cash (Pay utilities for current month)	300	300

Exercise 2-11 (LO 2-4)

ISE 2-11 (LO 2-4) March 1	Debit	Credit
Cash Common Stock (Issue common stock)	21,000	21,000
March 5 Cash Notes Payable (Obtain bank loan)	9,000	9,000
March 10 Equipment Cash (Purchase construction equipment)	25,000 <i>for cash)</i>	25,000
March 15 Advertising Expense Cash (Purchase advertising for current model)	1,100 month)	1,100
March 22 Accounts Receivable Service Revenue (Provide construction services on a	18,000 <i>eccount</i>)	18,000
March 27 Cash Accounts Receivable (Receive cash on account)	13,000	13,000
March 28 Salaries Expense Cash (Pay salaries for current month)	6,000	6,000

Solutions Manual, Chapter 2

Exercise 2-12 (LO 2-4)

Corrections

	External Transaction	Accounts	Debit	Credit
1.	Owners invest \$15,000 in the company and receive common stock.	Cash Common Stock	15,000	15,000
2.	Receive cash of \$4,000 for services provided in the current period.	Cash Service Revenue	4,000	4,000
3.	Purchase office supplies on account, \$300.	Supplies Accounts Payable	300	300
4.	Pay \$600 for next month's rent.	Prepaid Rent Cash	600	600
5.	Purchase office equipment with cash of \$2,200.	Equipment Cash	2,200	2,200

Note: Accounts in blue are corrected items. Accounts in black need no correction.

Exercise 2-13 (LO 2-4)

Corrections

	External Transaction	Accounts	Debit	Credit
1.	Pay cash dividends of \$800 to stockholders.	Dividends Cash	800	800
2.	Provide services on account for customers, \$3,400	Accounts Receivable Service Revenue	3,400	3,400
3.	Pay a \$500 utilities bill for the current period.	Utilities Expense Cash	500	500
4.	Receive cash of \$400 from previously billed customers.	Cash Accounts Receivable	400	400
5.	Pay for supplies previously purchased on account, \$1,200.	Accounts Payable Cash	1,200	1,200

Note: Accounts in blue are corrected items. Accounts in black need no correction.

Exercise 2-14 (LO 2-5)

Solutions Manual, Chapter 2

2-71

(\$ in thousands)

Requirement 1

Percentage change in total assets = (\$1,816,313 - \$1,782,660) / \$1,782,660 = 1.9%

Percentage change in net sales = (\$3,795,549 - \$3,609,865) / \$3,609,865 = 5.1%

Requirement 2

Percentage change in net income = (\$204,163 - \$212,449) / \$212,449 = -3.9%

Requirement 3

No. Based on the statement of stockholders' equity, American Eagle did not issue common stock in the most recent year.

Requirement 4

No. The terms "debit" and "credit" are not shown in the balance sheet. **Asset** accounts, such as cash, merchandise inventory, accounts receivable, and property and equipment, increase with a debit. **Liability** accounts, such as accounts payable, accrued rent, and other liabilities increase with a credit. **Stockholders' equity** accounts, such as common stock and retained earnings, also increase with a credit.

Requirement 5

No. The terms "debit" and "credit" are not shown in the income statement. **Expense** accounts, such as cost of sales and selling, general and administrative expenses increase with a debit. **Revenue** accounts, such as net revenue, increase with a credit.

(\$ in thousands)

Requirement 1

Percentage change in total assets = (\$538,116 - \$579,847) / \$579,847 = -7.2%

Percentage change in net sales = (\$913,380 - \$974,873) / \$974,873 = -6.3%

Requirement 2

Percentage change in net income = (\$89,707 - \$97,961) / \$97,961 = -8.4%

Requirement 3

Yes. Based on the statement of stockholders' equity, The Buckle did issue a small amount of common stock in the most recent year.

Requirement 4

No. The terms "debit" and "credit" are not shown in the balance sheet. **Asset** accounts, such as cash, inventory, accounts receivable, and property and equipment increase with a debit. **Liability** accounts, such as accounts payable, accrued employee compensation, and income taxes increase with a credit. **Stockholders' equity** accounts, such as common stock and retained earnings, also increase with a credit.

Requirement 5

No. The terms "debit" and "credit" are not shown in the income statement. **Expense** accounts, such as cost of sales and selling, general, and administrative expenses, increase with a debit. **Revenue** accounts, such as net sales, increase with a credit.

American Eagle for all three. American Eagle has a larger increase in terms of total assets, and also showed growth in net sales whereas Buckle's net sales declined. Buckle's net income declined by a larger percentage.

Without reading more of the financial reports at this point, it appears from the financial statements that the apparel business is slumping and Buckle is struggling to find its place, having already shown operations that it discontinued and perhaps a need to re-strategize its operations.

1. Increases reported profit by \$75,000, from a loss of \$50,000 to a profit of \$25,000 (ignoring any tax effects).

2. Yes.

Robert, the company's president, benefits from false reporting by maintaining the company's profitable appearance. The incentives could be bonus compensation plans, a desire to please stockholders, meeting analysts' earnings forecasts for the company, or maintaining good standing with creditors. Larry benefits from false reporting by keeping his friendship with Robert, keeping his job for the longer-term, and getting a free dinner tonight. However, if the false reporting is discovered by authorities, both parties face legal penalties and suffer reputational damage.

3. Yes.

Outside decisions makers, such as investors and creditors, view companies that report a profit instead of a loss as being more financially stable.

4. No.

As the accountant, Larry should understand that his responsibilities are to accurately record and report the company's activities. Larry must be aware that Robert may have incentives for falsely reporting to Larry about the additional revenue. Without source documents, an important step in the measurement process, Larry should not record any transactions.

(Note to instructor: Answers are based on items in Apple's September 30, 2017 annual report. Dollar amounts are in millions)

Requirement 1

Accounts receivable = \$17,874. The accounts receivable account represents the amount owed to Apple by its customers.

Requirement 2

Accounts payable = \$49,049. The accounts payable account represents the amount owed by Apple to its suppliers.

Requirement 3

Accrued expenses could include income taxes payable, salaries payable, interest payable, and rent payable.

Requirement 4

Common stock (including additional paid-in capital) = \$35,867. The common stock account represents capital contributed to the company by stockholders.

Requirement 5

Assets (\$375,319) = Liabilities (\$241,272) + Stockholders' equity (\$134,047)

Requirement 6

Net sales = \$229,234. The period of net sales is for the year ended September 30, 2017.

Requirement 7

Expenses include cost of sales; research and development; selling, general, and administrative; and provision for income taxes.

Requirement 8

Yes, the company's revenues exceed expenses. The difference is net income of \$48,351.

For transaction (a):

- Step 1. Analyze customer invoice.
- Step 2. Determine assets increase and stockholders' equity increases (and revenues increase).
- Step 3. Increase assets with a debit and increase revenues with a credit.

Step 4. Accounts Receivable

500

Service Revenue

500

(Provide services on account)

For transaction (b):

- Step 1. Analyze employee paycheck.
- Step 2. Determine assets decrease and stockholders' equity decreases (and expenses increase).
- Step 3. Decrease assets with a credit and increase expenses with a debit.

Step 4. Salaries Expense

1,200

Cash

1,200

(Pay salary for the current month)

For transaction (c):

- Step 1. Analyze purchase receipt for equipment.
- Step 2. Determine one asset increases and another asset decreases.
- Step 3. Increase assets with a debit and decrease assets with a credit.

Step 4. Equipment

2,700

Cash

2,700

(Purchase office equipment)

- Step 5. All transactions are posted to the general ledger accounts.
- Step 6. A trial balance is prepared using the balance of each general ledger account. Total debits should equal total credits in the trial balance.
